

## Baja Mar

Terraced into the hillside as it rises above the shores of balmy Conchas Chinas, this balconied beachfront Colonial casita combines a wide array of materials, colors, and exquisite design to blend in harmony with the striking blue Pacific and lush green surroundings and create an oasis for rejuvenation.

Crescent-shaped terraces finished in Mexican tile, living and dining areas separated by a see-through fireplace with a stunning hammered-steel chimney, rich terracotta-colored stucco walls and an infinity pool — all combine to blur the line between indoors and out.

Three air-conditioned bedrooms and three baths provide a haven for a small party. Combine with adjoining **Alta Mar** terraced above, which connects via the courtyard with a hand-carved stone fountain, to create a seven-bedroom hacienda to share with favorites.

A glass-walled elevator provides beach access by descending through undulating palms to the vista of waves breaking on the beach below.
