

# La Palma

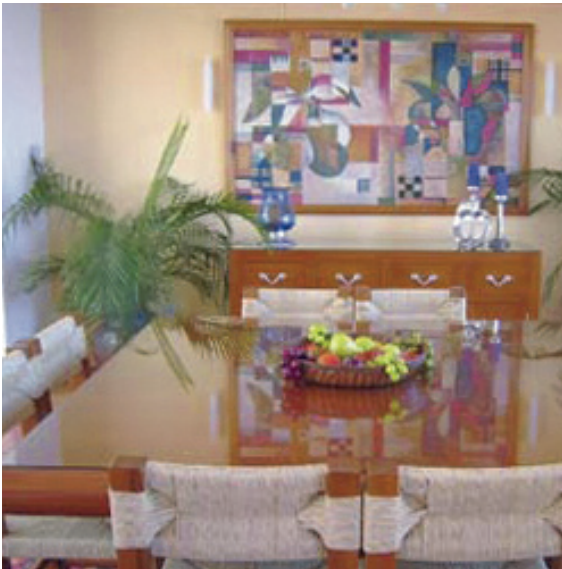

This spectacular three-bedroom villa, nestled on the hillside in upper Conchas Chinas just five minutes from downtown Puerto Vallarta and within walking distance to the sandy beach, is a perfect fusion of the best of contemporary design and tropical Pacific. Named for an immense palm tree which grows majestically through the middle of the villa, the house is designed with all rooms open to the tropical breezes and sweeping views of Banderas Bay, from Punta Mita in the north to Los Arcos in the south.

Enter onto the main level to an open concept living/dining area, well-appointed gourmet kitchen, and one bedroom suite, and continue out to the terrace, spectacular views and heated infinity pool.

Continue up to the upper level, featuring the magnificent master bedroom suite. The lower level has a third spacious bedroom suite. All bedrooms are air-conditioned with private *en suite* bath, providing comfort and privacy with full ocean views.

Your private staff, including maid with breakfast preparation and houseman, will tend to your every need.
