

# Profundo

Tucked behind Los Arcos, on the shore in a small cove just before famous Mismaloya Beach, is one of the most majestic villas in all Puerto Vallarta. Casa

Profundo is vastness and intimacy magically fused, ensuring a dazzling ocean view, privacy and exclusivity.

Enter the walled compound through imposing antique Moroccan doors to find open spaces filled with vivid colors and an interior garden. Half a level down on the main floor, the expansive living room draws a wide curve overlooking the blue Pacific. Specially-made modern Mexican furniture and white marble floors lined with pebbles accent spectacular views – even from the showers! Outside, a shaded terrace with heated infinity pool, oceanside jacuzzi and BBQ with palm trees brings a tropical beach to the villa.

Half a level up, three air-conditioned bedroom suites with en suite baths sleep six guests. On the next level, a spacious air-conditioned master bedroom with a cozy *palapa* terrace, bar and private sundeck delivers an experience worth remembering.
