

# San Sebastian

Nestled majestically amidst cliffside boulders in a sheltered Pacific cove on Puerto Vallarta's exclusive south shore, Casa San Sebastian effortlessly merges nature and lifestyle — two *higuera* trees with gnarled trunks form an integral partnership with the split-level residence that traces its roots to the genius of famed architect Luis Barragan.

The focal point is a soaring *palapa*-covered living/dining area with comfortable divans and *equipal* chaises and splashes of cobalt played up against white stucco and the verdant jungle foliage. The panoramic vista provides views of the sea and Los Arcos. A dramatic 45' heated infinity pool/jacuzzi blends into the Pacific, and luxurious white marble floors throughout the home display traditional inlaid pebble designs handset by native artisans.

Three lavish master suites have king beds, private terraces, oversized marble baths and raised jacuzzis. A fourth suite has a queen bed and *en suite* bath. Other amenities include outdoor dining, bar/recreation area, lagoon swimming pool and the surf at your doorstep.

## 3-4 BR

Location: Oceanfront

Views: Banderas Bay, town of Puerto Vallarta

Staff: four, including cook

Features: private heated infinity swimming pool, full air-conditioning, jacuzzis, satellite TV/VCR/DVD/CD, fax, high-speed Internet

## Casa Helga Villas
