

Tropical

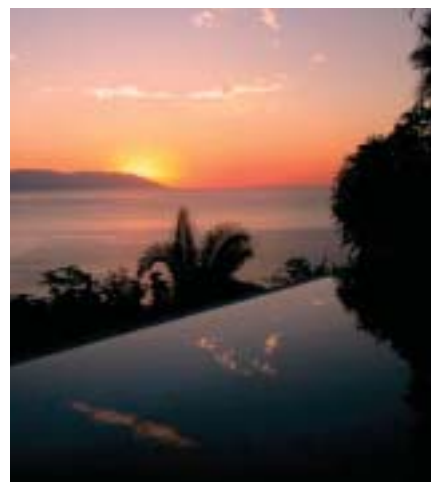

This unique villa is located on a quiet cul-de-sac in the exclusive Conchas Chinas neighborhood on the desirable south side of town. Nestled on a knoll perched above breathtaking Banderas Bay, you can view jungle-covered mountains meeting the blue-green Pacific. The white sandy beach is just a five-minute walk away, while the quaint town of Puerto Vallarta and all that it offers is just a five-minute drive.

The spacious living room, dining room and one of the master bedroom suites provide stunning sunset viewing over the Bay. Both master suites, each with king-size bed, offer air-conditioned comfort, and the bathrooms have double sinks, colorful tile and interior jungle gardens.

The lower level features a sparkling infinity pool blending into the jungle and sea, and is accented by poolside gardens, terraces and tile. Amenities include a large-screen TV, DirecTV, CD and DVD with speakers installed inside and out, with an expansive library of movies.

Tailor-made margaritas and restaurant-quality food are created for you by your personal chef, who will cater to your every need, including low-fat or low-carb diets. The villa provides all the privacy you desire and you will want for nothing in your secluded haven by the sea.
