

Oso

Located on a beautiful stretch of sandy beaches directly on the Pacific, this no-luxury-barred retreat offers the ultimate in pampered relaxation and rejuvenation.

Enter the main house through two hand-hewn wooden doors into the Grand Hall with its soaring vaulted ceiling and accent archways perfectly framing the magic combination of deep blue sky, ocean and lush balcony gardens. Beckoning is a massage table hinting of later pleasures and special moments of private relaxation.

Seven suites, each with private bath – three are spa-suites with private jacuzzi and romantic supersize outdoor shower – combine with original art-laden living spaces to create luxurious harmony. Secluded paths wind through lush multi-levels of exotic tropical plantings and swaying palms down to the sandy beach.

Easily accessed from the rustic cobblestone street, Osito is both a magnificent extension of space from the main house and a beautifully efficient self-contained delight in and of itself. Lush tropical gardens and a winding drive connect with the main complex. A marble semi-circle bar separates several cozy conversation areas, formal dining room, and social gathering spaces from a fully equipped gourmet kitchen replete with theater-style popcorn popper, professional pizza oven and ice cream maker.

Literally only a few hours away from most North American airports, paradise has never been closer.

5-7 BR
