

Piedra Blanca

This luxurious beach-front villa, located only twenty minutes north of the airport, blends in with the environment that surrounds it, taking advantage of the orientation and outrageous views of Banderas Bay. Magnificent interior spaces create a viewpoint into a magical ocean window, with absolute peace and privacy within the gated community of Real del Mar.

Mexican architectural style and artwork merges with exotic topography, achieving a unique spirit. Wide terraces and a sun deck, tropical landscaped patio with fountain and a pond with Japanese carp, and spectacular views of the Bay from any area of the house are accented by a panoramic *palapa* surrounded by the grand infinity pool, large jacuzzi and bar. The main living room has a dining area/bar, or enjoy casual outdoor dining around the grill.

Five bedrooms each have private terrace and *en suite* bath, and an office/studio adds an optional bedroom. A media room with home theater provides entertainment in comfort, or take direct access to the beach and Beach Club with tennis courts. An elevator connects the garage to the master bedroom and main living room, and a full staff includes private cook who serves breakfast + lunch or dinner.

5 BR
